Title	Comments	Result
Overlooking The City	Wonderful lighting. There seems to be some unusual areas of colour behind the mosque which may to due to a post processing issue.	A
Sunshine Meadows	Tranquil scene with great leading lines. Harsh lighting has caused some loss of detail in the whites.	HC
Canoeing anyone	Very strong leading lines and sense of depth. Good technical details.	H
Speed queen	Good use of panning technique. Could have considered zooming out a little to include more of the surrounding environment for a stronger story.	HC
Three Sisters	Stunning reflections and lighting. Could clone out the dust spots in the sky.	HC
Wave Break	Good textures and detail throughout and the whites have been well handled. Would have been worth zooming out to include more of the surrounding environment for a more complete story.	HC
Busy Bee	Very good close up and crisp. Even lighting and effective DOF.	M
Civilised Rogue	Good connection between subject and photographer. Seems to be some lack of detail throughout the skin areas.	A
Droopy Daisy	Good blurred background and vibrant colour. Could consider zooming in and making a feature of the flower centre.	HC
La Rouge	Effective pose and lighting. The skin areas seem a little soft.	A
Covid Effects	Powerful story and interesting lighting. Could consider lighting the top area of the building very slightly.	HC
Frans Josef Glacier	Very good technical details and composition. Could consider lightening the dark area on the LHS of the frame slightly.	M
Come Closer	Very good use a shallow DOF. The graduated colour gives a good sense of depth.	H
Pretty in Pink	Effective idea and the backdrop colouring works very well. The very bright area on the side of the vase is a bit distracting...could have considered repositioning the light source.	A
